

# Kyle Reginaldo

## Full-Stack Developer

a passionate software developer specializing in Flutter for cross-platform development and NestJS for building scalable backends. I also work with React and Next.js to deliver responsive and dynamic web applications. With experience in Firebase, Supabase, and Google Cloud Platform, I build efficient, cloud-integrated solutions following clean architecture and modern development best practices

### EXPERIENCE

#### **LabsToGo**, Virginia USA — *Flutter , Next.js, NestJs Developer*

May 2024 - May 2025

- Developed **Mobile Medical Lab App**, enabling users to conveniently book on-demand medical services.
- Built the **Mobile Medical Lab Website** using Next.js for a seamless booking experience across devices.

#### **Celebreak**, Barcelona — *Flutter Developer*

November 2024- February 2025

Contributed to **TownSquare**, an application that allows users to connect, interact, and socialize within their local community.

#### **Avyan Global**, Nueva Ecija Ph. — *Flutter Developer*
